

Administrative/Internal Use Only

OIT-7170-87
2 April 1987

MEMORANDUM FOR: Associate Deputy Director for Administration

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: Support for Applicant Processing Model

Hart
OIT has agreed to maintain the Applicant Processing model developed by OD&E. OIT and OP have jointly met with OD&E and are working together to set up the environment to run the model and to delineate responsibilities for the separate portions. OIT is also working with OD&E to move the software and documentation into the OIT/MISG standard configuration management environment. We expect to complete this process very shortly. If there are any questions regarding OIT's role, can assist you.
